REMARKS.

By reference to the financial statement on the preceding pages, it will be seen that the expenditures on account of High School during the past year amounts to $1,710.30. This does not correctly represent the cost of maintaining the High School for the year, as approximately $300.00 of the $1,403.25 paid teachers, was for services rendered previous to the close of the winter term in 1904.

For the year ending in June, 1905, the salary of of High School teachers will be $1,287.00, or $116.25 less than has actually been paid out during the year ending Feb. 15, 1905. At the close of the present Winter term, there will be due teachers, $178.25, which must be paid from the 1905 appropriation.

We are of the opinion that the yearly appropriation should be made to cover all expenses to the close of the winter term. This can be done by reducing the length of the school year, lowering the salaries of the teachers, or by appropriating an additional sum to cover present deficiency.

There are at present five pupils attending our High School from out of town, from whom we receive tuition of $10.00 a term. We can only hope to increase, or maintain this number, by keeping up the standard and length of our school.

The School Census of October, 1904, shows that we have 234 school children in town, between the ages of 5 and 16 years. We have carried scholars from Division 7 to Division 1; from Division 6 to 2; from Division 5 to 3; and are also carrying children to Division 4. While the expense is considerable, it is less than it would cost to maintain schools in these divisions.

We are gratified by the interest displayed by the parents and others in the schools, as evinced by the large number of visitors, and invite suggestions and friendly criticism from all who have the good of the schools at heart.

CHARLES F. BUTTERFIELD,
HENRY A. HURLIN.
School Board of Antrim.

The library is well patronized, over one hundred books are circulated through the town each week. A large number of books, chiefly of a scientific and historical nature, have been loaned the teachers in the several schools the past year to aid in supplementary work, and it is greatly desired that more of such volumes be placed in our library.

During the next year two hundred volumes at least need re-binding. It is now eight years since our last library catalogues were published, and during this time a large number of books have been added to the library. It would be very gratifying to the patrons of the library if new catalogues might be issued the coming year. It is earnestly hoped that sufficient means may be appropriated this year to permit of these requests which we consider so necessary to the welfare of our Public Library.

J. LEON BROWNELL,
SARAH M. ADAMS,
